

APOLLO - PERFORATED MILD STEEL GUARDRAILS

Apollo Guardrails are perforated mild steel railings, specifically for interior balconies, stairs, and other elevated spaces. These steel guardrails are a cost effective way to enhance the security and aesthetics of your property.

The Apollo Perforated Guardrails are versatile structures that combine strength, durability, and style to create a visually appealing and functional boundary. The addition of perforated paneling regulates shade, visibility, and privacy. Lighting features can also be added.
